# IEEE ICSCIT 2027

International Conference on Smart Computing and Intelligent Technology

http://icscit.org

Bandung, Indonesia
**October 13 - 14, 2027**

The International Conference on Smart Computing and Intelligent Technology (ICSCIT 2027) will be held in Bandung, Indonesia, on October 13-14, 2027. This year's conference theme is ***"Advancing Smart Computing and Intelligent Technologies for Sustainable Digital Transformation"***. The conference is hosted by Budi Luhur University and jointly organized with Universiti Teknologi Malaysia (UTM) and the Indian Institute of Information Technology Allahabad (IIITA). The event aims to bring together researchers, academics, practitioners, and industry professionals to discuss recent advances in smart computing, artificial intelligence, data science, and intelligent systems. It provides an international platform for sharing research findings, technological innovations, and best practices in smart systems, intelligent technologies, and digital transformation across sectors including healthcare, education, transportation, governance, and industry. The conference covers a wide range of topics, including but not limited to artificial intelligence and machine learning, smart computing systems, computer vision and image processing, Internet of Things (IoT) and smart cities, big data analytics, cybersecurity and privacy, cloud and edge computing, intelligent healthcare systems, blockchain and distributed systems, and software engineering and information systems.

### General Guidelines and Paper Submission

- Submissions must be made through the conference submission system (EDAS).
- Papers should follow the standard IEEE Conference Template.
- Full papers : 4–6 pages including references.
- All submissions will undergo double-blind peer review by at least three reviewers.
- Accepted papers must be presented to be included in the proceedings.

All accepted, registered and presented papers will be submitted for inclusion in IEEE Xplore® Digital Library and indexed by major databases (subject to meeting quality standards and scope).
